Charlotte	US	1,499,293	6.7	96.6	1.3	1.2	0.1	0.8

Sources: Australian and Canadian Census 2006, US Census 2000

Notes:

- Population and mode share figures are for the entire census area, density is for urban area only, except for the following US regions: San Francisco Consolidated Metropolitan Statistical Area includes San Jose urban area, and Washington CMSA includes Baltimore, so Metropolitan Statistical Areas figures have been used for population (unfortunately, mode share figures were only available for the larger CMSAs).
- ‘Car’ includes car passenger and truck; ‘other’ includes motorcycle and taxi (counted as public transport in some US studies).
