

Residents of Gungahlin, have you heard?

The ACT Government, with apparently no social impact assessment, has agreed to the establishment of a **mosque with a capacity of 500**, to be erected at 140 The Valley Avenue Gungahlin. This 500 capacity mosque will dominate the viewscape and will impact on you and all other residents of Gungahlin.

If this mosque is to go ahead, we are concerned about the following:

- Social Impact;
- Traffic and noise;
- Public interest;
- Bulk scale and height.

Honesty and transparency in communicating with others whom your actions may affect is the accepted way that Australian neighbours treat each other. This developer and its client, appears to have made little effort towards this. Therefore, it is doubtful that they will be a good neighbour to the Gungahlin community.

We urge you to read the Development Application (**DA number 201221881**), which is now open for comment or objection. You can inspect the DA online or visit the office of the Environment and Sustainable Development Directorate at 16 Challis Street Dickson during normal business hours.

Any objections must be lodged no later than 6th July 2012. If you do not feel this development is appropriate for your local area then please act now or else it WILL go ahead.

Please support us in opposing the development of this 500 capacity mosque. **There will be a private closed-door meeting this Sunday 1st of July.** Location and time for this important meeting will be provided only to those who register.

To register for this meeting please email us your full name and contact details to: ConcernedCitizensofCanberra@gmail.com
