U.S Anti-Abortion Campaigner Troy Newman to stir up debate in Australia

Invitation to Media conference

Thursday 1st October 2015 at 11 am at 161A Donald St. Brunswick East

Troy Newman, President of Operation Rescue (U.S.) which has blown the lid on the lucrative sale of body parts from preborn children aborted at Planned Parenthood abortuaries in the U.S. will be visiting Australia from the 1st October to 9th October at the invitation of Right to Life Australia.

Troy will tell of the effective undercover operations which led to abortion doctors boasting of how they sell the body parts of preborn children aborted at their abortuaries.

Already this campaign has caused a furore in the U.S. and globally and has caused effective anti-abortion legislation to be enacted both at a state level and in the U.S. Congress.

Troy says that their campaign is having an impact over the choice of the would-be Republican Party nominee for next year's presidential election.

Mr Newman will be speaking in Melbourne, Sydney, Hobart, Brisbane and Cairns and will be giving some impetus to the campaign in Victoria against the push to create a huge "bubble zone" around abortuaries, spearheaded by Sex Party M.L.C. Fiona Patten and now taken up by the Andrew's government.

He will also be encouraging a strong campaign against the plan of Sydney Greens M.L.C. Dr Mehreen Faruqi to remove through legislation all protection in N.S.W.

Right to Life Australia's spokesperson Dr Katrina Haller says. "Will this explosive Operation Rescue campaign do as much for the hapless preborn as did Harriet Beecher Stowe's famous novel, "Uncle Tom's Cabin" did for the hapless slaves in the U.S?"

VIDEOS released from [The Centre for Medical Progress USA](#)

Here is a summary of all ten:

- **In the first video:** Dr Deborah Nucatola of Planned Parenthood commented on baby-crushing: “We’ve been very good at getting heart, lung, liver, because we know that, so I’m not gonna crush that part, I’m gonna basically crush below, I’m gonna crush above, and I’m gonna see if I can get it all intact.”
- **In the second video:** Planned Parenthood’s Dr Mary Gatter joked, “I want a Lamborghini” as she negotiated the best price for baby parts.
- **In the third video:** Holly O’Donnell, a former Stem Express employee who worked inside a Planned Parenthood clinic, detailed first-hand the unspeakable atrocities and how she fainted in horror over handling baby legs.
- **In the fourth video:** Planned Parenthood’s Dr Savita Ginde stated, “We don’t want to do just a flat-fee (per baby) of like, \$200. A per-item thing works a little better, just because we can see how much we can get out of it.” She also laughed while looking at a plate of fetal kidneys that were “good to go.”
- **In the fifth video:** Melissa Farrell of Planned Parenthood-Gulf Coast in Houston boasted of Planned Parenthood’s skill in obtaining “intact fetal cadavers” and how her “research” department “contributes so much to the bottom line of our organization here, you know we’re one of the largest affiliates, our Research Department is the largest in the United States.”
- **In the sixth video:** Holly O’Donnell described technicians taking fetal parts without patient consent: “There were times when they would just take what they wanted. And these mothers don’t know. And there’s no way they would know.”
- **In the seventh and perhaps most disturbing video:** Holly O’Donnell described the harvesting, or “procurement,” of organs from a nearly intact late-term fetus aborted at Planned Parenthood Mar Monte’s Alameda clinic in San Jose, CA. “You want to see something kind of cool,” O’Donnell says her supervisor asked her. “And she just taps the heart, and it starts beating. And I’m sitting here and I’m looking at this fetus, and its heart is beating, and I don’t know what to think.”
- **In the eighth video:** StemExpress CEO Cate Dyer admits Planned Parenthood sells “a lot of” fully intact aborted babies.
- **The ninth video:** catches a Planned Parenthood medical director discussing how the abortion company sells fully intact aborted babies — including one who “just fell out” of the womb.
- **The 10th video:** catches the nation’s biggest abortion business selling specific body parts — including the heart, eyes and “gonads” of unborn babies. The video also shows the shocking ways in which Planned Parenthood officials admit that they are breaking federal law by selling aborted baby body parts for profit.
